Dear Frank:

I have your two letters at hand, and thank you for all the information.

A wire from Jack Flynn indicates that his plans are such that he cannot make a visit.

The Los Angeles matter is much firmer than the newspaper accounts would indicate.

Sincerely,

WFO'M/f

P. S. Bob Rome, President of the Subways Advertising Company, is now in camp and brings the alarming report that a routine matter having to do with the extension of our lease has been put off by order of the Transit Authority. Probably as official retribution for the Ball Club publicity. Never a dull moment.
