Dear Walter:

That was an impressive lot of clippings that I got from you today. I have examined them with a great deal of interest.

Charlie Mylod is away for a week and will not be back in town until next Monday. I will hold the clippings and then get in touch with him and have a talk with him. I think it is important that he absorb some of the enthusiasm that is shown in Los Angeles -- particularly an editorial. I can not identify the paper that it comes from.

I will see that the clippings are returned to your office after Mylod has examined them.

Mylod told me that he would keep me in daily touch about the negotiations with Madigan-Hyland, both on his part and on the part of the Mayor's committee. They were to have met sometime this week, but now I suppose Mylod will not get together with them until next week. Any delay is to be regretted.

It is true that the whole general attitude has changed a great deal. The story about Abe Stark now being fervently for the stadium aroused a lot of comment. There continues to be a few who still snipe at the whole idea, but I am certain that the stadium is now really on the way.

Yesterday a Martin Snyder, who said he was the producer of the television presentation "Do It Now," every Saturday afternoon, called me. It was suggested by someone at City Hall that he talk with me about the status of the entire matter.

P. S. - In Rome the other day Vice President Nixon met a priest from Brooklyn at the American College. He told the priest that the Dodgers were going to move to Los Angeles. He spoiled the priest's day.
