Mr. Walter O'Malley,
Los Angeles, Calif.

Dear Walter:-

I just want to write and say to you, I think along with all others, that you have broke all the records also this surely will stand without any challenging effort, this idea, spirit and now carried out to its conclusion for a ball player, Campanella, a great catcher, a fine type, there simply has never been done before.

I feel deeply towards you for this, a great and grand act.

I am happy your club is up in the running, you deserve a permanent fight right down to last day.

I have followed the travail you have endured to bring Major League baseball to Los Angeles, you can comfort yourself with being sure, the few off sides there who tried to throw obstacles in your plans, are much in minority and they amount to so little.

Every good wish to you personally,
I am,

Sincerely

Ty Cobb
