STATEMENT OF WALTER F. O'MALLEY, PRESIDENT, BROOKLYN DODGERS

Borough President John Cashmore, his survey committee and Mayor Bob Wagner have faced an important problem with courage and intelligence. The Dodgers, and for that matter all sports fans, are elated at the possibilities for a new stadium. We are also pleased this has the endorsement of Commissioner Bob Moses.

Even without the Dodgers, the program is one of great Civic importance to New York City and the Borough of Brooklyn. Should the result be that a new stadium can be included at Atlantic and Flatbush Avenues, the Dodgers would be interested in

- a., buying the land, building and operating the stadium; *or*
- b., participating in a bond issue; or
- c., being a tenant.

It will be sad to see Ebbets Field demolished but anyone familiar with its many limitations will understand that this fine old landmark has to go and soon.
