Dear Walter:

Submitted herewith are two copies of a preliminary report which includes the results of a study made to locate a suitable site for a new stadium in the downtown section of the Borough of Brooklyn. Also enclosed are three large prints of a drawing of the Downtown Area showing the changes proposed by the City Planning Commission and on which has been indicated the suggested location for a new stadium. The stations of rapid transit facilities in the adjacent areas have also been shown on this drawing.

Sincerely,

E. H. Praeger
