

August 6, 1957.

Chester A. Allen, President,  
Kings County Trust Company,  
342 Fulton Street,  
Brooklyn 1, N. Y.

Dear Chester:

Your party pulled us through last evening and you are reinstated as a weather profit.

Now to your letter of Monday, August 5th, I am sure the customer could find us a site in Norway where we could build our own park with our own money.

A strange commentary on our present situation is the under-publicized fact that we have offered to invest \$5,000,000 in a new stadium and to pay \$500,000 a year rental. No baseball club or individual in the entire history of the game has ever invested that much money in baseball, nor has any club ever paid a rental equal to \$500,000 a year. The press persists in creating the impression that we want the city to build us a stadium. All we actually want is the privilege of getting a suitable location. Oh well!

Sincerely,

Walter F. O'Malley,  
President.
