[Blurred text, likely a recipient address]

I have been reading your threats about leaving Brooklyn if a new ball park isn't provided. Even though I doubt you are serious about leaving, I am bringing with me a letter from County Supervisor (Los Angeles) Kenneth Hahn, president of the Coliseum Commission, pledging immediate use of the Coliseum to any major league club that will transfer to this community.

[Blurred text, likely the body of the letter]

3---

Walter, you should give Los Angeles serious thought. If you don't you will regret it some day when major league baseball comes here and you find Los Angeles the richest baseball town in history.

Vince
